

MARVEL

IRON FIST
DANNY RAND

FORCE OF ONE

Before attacking with Iron Fist, you may choose to either:

- attack any or all figures adjacent to Iron Fist, rolling each attack separately; or
- add 3 to Iron Fist's Attack number this turn, and while attacking, Iron Fist has the Super Strength special power.

FOCUSED CHI

Once per round, after taking a turn with Iron Fist, you may reveal an "X" Order Marker on this card and remove one Wound Marker from this card or the Army Card of a Unique Hero adjacent to Iron Fist.

STEALTH LEAP 12

Instead of his normal move, Iron Fist may use Stealth Leap. Stealth Leap has a move of 3. When counting spaces for Stealth Leap, ignore elevations. Iron Fist may leap over water without stopping, leap over figures without becoming engaged, and leap over obstacles such as ruins. Iron Fist may not leap more than 12 levels up or down in a single leap. When using Stealth Leap, Iron Fist will not take any leaving engagement attacks.
