This map was built with the 2 vs 2 team tournament (Chaos in the Capital) run by Uprising in January 2009, in mind.

As of this time the tournament parameters are 700pts (350 per teammate) and 30 start zone spaces (15 per teammate).

Shown on the map are possibilities for three distinct start zones per side. This map can also easily accommodate a 'normal' 1 v 1 match with the usual 24 hex start zone (use the 24 hex swamp piece on each side).

*Technically two RotVs are needed since I used the small ruin on each side, but the large ruin can be used in its place easily enough.
