### MARTIAN WAR ZONE: THE HEAT BATTLEFIELD

#### Required Sets:

Rise of the Valkyrie™ Master Set, Volcarren Wasteland™, 2 Battle for the Underdark™ Master Sets

*The Heat, as it is commonly known, coined its name not from just its hot lava and molten rocks, but also because this famous battle ground once ran hotter than the sun with the blood and battle of thousands of Martians during one of their most terrible civil wars. Some say the ground never forgot the massacre, and so it remains for ever troubled by the constant eruptions of lava still mixed with the ancient blood of the Martians who fought and died here.*
