

The logo for Heroscape Legacy features the word "heroscape" in a stylized, blue, lowercase font with a metallic, glowing orange and yellow background. Below it, the word "LEGACY" is written in a large, bold, black, uppercase font.

Heroscape: Legacy is an alternative unit cost system for Heroscape. This system is designed so you can play with the official figures the way they were written, but with an alternative cost system so all units are equally competitive.

When you play with Heroscape: Legacy, use all of the normal rules of Heroscape, except use Legacy Points instead of the point value listed on the card. Like the original Heroscape point system, Heroscape: Legacy is optimized for games between 400 and 600 points, but you are welcome to play with any army size you want.

This is the Winter 2010 publication of Heroscape: Legacy. Even though new official figures are no longer being produced, these point values may change after months of playtests and feedback. The goal is always to produce the most balanced costs possible. The next Heroscape: Legacy publication is planned for Spring 2011 and relies on your feedback.

Thanks for playing!

Produced by **CornPuff**

Big thanks to **spider_poison** and **Jexik** for creating and maintaining the Heroscape Power Rankings. The Power Rankings are at the heart of the cost adjustments.

Credit to **GaryLASQ** for having the best Heroscape stat site. The figure names in this document were copied from his character table.

Special thanks to everyone at **Heroscapers.com**. This is for you.
